☒ Specific characteristics of the material or service that limit the availability to a sole source/brand product (unique features, function of the item, etc.). Describe in detail why only this source/brand can furnish the requirements to the exclusion of other sources/brands. **FRCSW artisans do not have experience, resources, training, or documentation which would allow trouble shooting and repair to the component level. LVD/Strippit does not train or utilize third parties in the US. They will provide basic training to customers but will not train past a point where it becomes proprietary or additional special training is needed.**

☐ The material or service must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect or interface with the existing system.

☒ A patent, copyright or proprietary data limits competition: **The LVD laser C4000 is a highly sophisticated machine with a high degree of integration between the CNC control, Laser and Machinery. The LVD laser AXEL3015S cutting system was designed, developed and manufactured by LVD Corporation. Due to the proprietary nature of the design, software and components LVD Strippit is the only available single source for after sales support, spare parts and service.**

☒ The items are "direct replacement" parts/components for existing equipment. Provide the information about the Next Higher Assembly (NHA)/equipment which the replacement parts are going into (e.g. description, model, part number, Original Equipment Manufacturer (OEM), etc.). **LVD/SRIPPIT, MODEL AXEL - 3015S, S/N 27917**

☐ Other information to support sole source/brand name sole source procurement. The rationale must then justify "either" substantial duplication of cost to the Government that is not recovered through competition or unacceptable delays in fulfilling the mission of the agency.
